Careers in Biology

Join us for four presentations exploring some of the many avenues available to the Biology professional.

Attendance by Zoom, all talks take place from 2–3:30 pm (11 am–12:30 pm PST)
Password: MITBiology

Exploring a Career Path in Biotech and Biopharma

Florencia Rago
Principal Scientist, Novartis Institutes for BioMedical Research (NIBR)

Amy Rabideau
Associate Director, Moderna

Elizabeth Paik
Head of Genome Engineering, Associate Director, Vor Biopharma

Are you interested in pursuing a career in the biotechnology or pharmaceutical industries after graduation? What are the key differences between working in industry vs academia? What are the perks of each of these sectors and how do you navigate the job search? Learn about the wide variety of opportunities that exist: from basic science to translational research as well as clinical trial management and business operations. Our talented speakers will share their diverse set of experiences and provide valuable career advice in these areas.

Art & Science

Christine Liu
PhD candidate, University of California, Berkeley

Sarah McGuiness
PhD candidate, University of Illinois, Chicago

As academics, we work to better contextualize our relationship with the natural world. Other disciplines, especially art, have their own distinct ways of analyzing our relationship to our universe in furtherance of this goal. Artistic representations of scientific ideas are interesting in their own right, and can serve to improve your ability to communicate your scientific ideas. How can art help your science? Could your scientific work one day become part of a work of art? To what extent can you merge your scientific and artistic interests in a career?

Monday, January 18th
Zoom Link: https://mit.zoom.us/j/96753238521

Science Policy

Rocco Casagrande, PhD
Managing Director, Gryphon Scientific

Erica Kimmerling, PhD
Senior Advisor for Science Engagement Policy and Partnerships, Association of Science Centers

Daniel Pomeroy, PhD
Executive Director of the Scientific Citizenship Initiative, Harvard Medical School

Interested in applying your Biology PhD to work in the public sector? Come learn about how to transition from Biology graduate school to a career in science policy.

Wednesday, January 13th
