

Colloquium Series Spring 2021

Time & Location: 4pm [Zoom](#), password MITBiology

FEB 9, 2021

Linda Partridge | University College London

Aging: a gut feeling

Host: Omer Yilmaz

FEB 23, 2021

Antonina Roll-Mecak | NIH

New paradigms in microtubule biology: the tubulin code and microtubule repair

Host: Bob Sauer

MAR 2, 2021

Uri Alon | The Weizmann Institute

Design principles of hormone circuits

Host: Pulin Li

MAR 23, 2021

Melanie Ott | Gladstone Institute

TBD

Host: Laurie Boyer

Mar 30, 2021

Cassandra Extravour | Harvard University

Egg development and evolution, inside and out

Host: Ruth Lehmann

APR 6, 2021

Dianne Newman | California Institute of Technology

The agathokakological roles of microbial redox-active "secondary" metabolites

Host: Chipperfield Lecture

APR 13, 2021

Matt Waldor | Harvard

Enteric Pathogen-Host Interactions: New Approaches and New Biology

Host: Becky Lamason

DEC 1, 2020

Joan Steiz | Yale University

Viral Noncoding RNAs: approaching answers

Host: Rick Young

MAY 4, 2021

Beronda Montgomery | Michigan State University

TBD

Host: BGSC
