

Colloquium Series Spring 2021

Time & Location: 4pm [Zoom](#), password MITBiology

FEB 9, 2021

Linda Partridge | University College London

Aging: a gut feeling

Host: Omer Yilmaz

FEB 23, 2021

Antonina Roll-Mecak | NIH

New paradigms in microtubule biology: the tubulin code and microtubule repair

Host: Bob Sauer

MAR 2, 2021

Uri Alon | The Weizmann Institute

Design principles of hormone circuits

Host: Pulin Li

MAR 23, 2021

Melanie Ott | Gladstone Institute

New approaches to testing and treating SARS-CoV-2

Host: Laurie Boyer

Mar 30, 2021

Cassandra Extravour | Harvard University

Egg development and evolution, inside and out

Host: Ruth Lehmann

APR 6, 2021

Dianne Newman | California Institute of Technology

Chipperfield Lecture: The agathokakological roles of microbial redox-active "secondary" metabolites

Hosts: Chris Cabana and Sean-Luc Shanahan

MAY 4, 2021

Beronda Montgomery | Michigan State University

Shaping Up: Photoregulation of Cellular Morphology & Microcompartments in Cyanobacteria

Hosts: Rachel Anderson and Gerardo Perez Goncalves

MAY 11, 2021

Harmit Malik | Fred Hutchinson Cancer Center

Title: TBA

Host: Idan Frumkin
