

Advanced Undergraduate Seminar

7.341. Microbes at War: The Mechanisms That Drive Infectious Diseases

Topics include:

- How various microbes interact with their hosts to cause diseases
- How the host responds in an attempt to stay healthy (and how this sometimes backfires!)
- How to critically read, evaluate, and discuss the primary research literature
- A field trip to a local biotech company!

The war begins (first class):
Tuesday Sept 13 at 11am

*Day and time of class meetings will be determined based on student and instructor availability

Instructed by Lisa McLellan
(Lab of Alan Grossman)
