SB IN CHEMISTRY AND BIOLOGY, COURSE 5-7

An interdepartmental program offered jointly by the departments of Chemistry and Biology focuses on the intersections of these two subject areas, encompassing Biochemistry and Chemical Biology. There is flexibility in the elective subjects and the lab tracks that enables students to tailor their major program to their specific interests.

For more information see [chemistry.mit.edu](https://chemistry.mit.edu).

SB IN COMPUTER SCIENCE AND MOLECULAR BIOLOGY, COURSE 6-7

An interdepartmental curriculum offered jointly by EECS and the Department of Biology, Course 6-7 prepares students for careers in emerging areas at the interface of biology and engineering—including bioinformatics and computational molecular biology.

For more information see [www.eecs.mit.edu](https://www.eecs.mit.edu)

For interdepartmental programs, students are full members of both departments, with one academic advisor from each department.
