

Colloquium Series Spring 2025

Time & Location: 4pm, Stata Center, 32-123

FEB 4, 2025

Duojia Pan | UT Southwestern Medical Center

Solid-like condensates of tumor suppressor protein Merlin/NF2 in Hippo pathway regulation

Host: *the Postdoctoral Association*

FEB 11, 2025

Joanna Wysocka | Stanford University

Human development and evolution through the lens of gene regulation

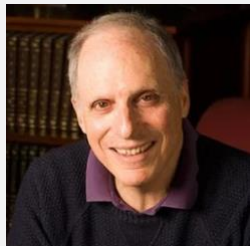

Hosts: *Yadira Soto Feliciano & Eliezer Calo*

FEB 25, 2025

Howard Chang | Stanford University

Host: *Jonathan Weissman*

MAR 4, 2025

David Eisenberg | UCLA

Surprising mechanism of small molecules that disassemble pathological amyloid fibrils associated with neurodegeneration

Host: *Amy Keating*

MAR 11, 2025

Ahmad Khalil | Boston University

Cooperation in native and synthetic biology

Host: *Michael Laub*

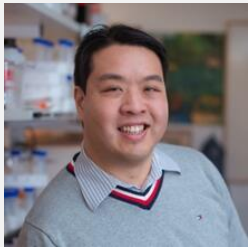

Learn, Discover, Innovate

Colloquium Series Spring 2025

Time & Location: 4pm, Stata Center, 32-123

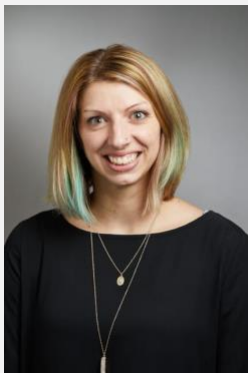

MAR 18, 2025 **Nicholas Bellono** | Harvard University
Taste by touch in octopus
Host: TBA

APR 1, 2025 **Isaac Chiu** | Harvard University
Role of nociceptor neurons in pain, immunity and host defense
Host: Erin Chen

APR 8, 2025 **Geraldine Seydoux** | John Hopkins School of Medicine
A structural role for mRNAs in condensates?
Host: Yukiko Yamashita

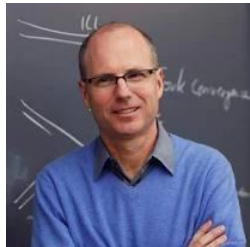

APR 15, 2025 **Kaelyn Sumigray** | Yale University
Collective cell dynamics in epithelial morphogenesis
Host: the Chipperfield Graduate Committee

Colloquium Series Spring 2025

Time & Location: 4pm, Stata Center, 32-123

APR 22, 2025

Johannes Walter | Harvard University
AI-powered studies of vertebrate DNA repair
Host: Seychelle Vos

APR 29, 2025

Rebecca Heald | University of California, Berkeley
Mechanisms and consequences of size scaling in frogs
Host: Adam Martin

MAY 6, 2025

Daniel Cohen | Princeton University
Host: the Postdoctoral Association

MAY 13, 2025

Ardem Patapoutian | Scripps Institute
Host: Sara Prescott
