

# Colloquium Series Fall 2025

Time & Location: 4pm, Stata Center, 32-123

SEP 16, 2025

**Anna Maria Pyle** | Yale University

Discovery and targeting of novel riboregulatory structures in viral and mammalian mRNAs

*Host: Ankur Jain*

SEP 23, 2025

**Rebecca Lamason** | MIT

Life on the inside: How an emerging human pathogen navigates the complex host cell landscape

*Host: Amy Keating*

SEP 30, 2025

**Manu Prakash** | Stanford University

TBD

*Host: Lindsay Case*

OCT 21, 2025

**Lauren Goins** | Stanford University

Spatial and temporal coordination of cell cycle and cell fate during blood cell development

*Host: Adam Martin*

NOV 4, 2025

**Gira Bhabha** | Johns Hopkins University

Extreme cell biology of a minimal eukaryotic pathogen

*Host: Joey Davis*

Learn, Discover, Innovate

# Colloquium Series Fall 2025

Time & Location: 4pm, Stata Center, 32-123

NOV 18, 2025

**Jeffrey Ratmell** | University of Chicago

TBD

*Host: Alison Ringel*

DEC 2, 2025

**Elcin Unal** | University of California, Berkeley

Meiotic Differentiation: How to Create Life out of Programmed Destruction

*Host: Yadira Soto-Feliciano*

Learn, Discover, Innovate
